

EuroPerio 5, the Rendez-vous for all Clinicians

The European Federation of Periodontology (EFP) is a strong and dynamic organization which represents all the Societies of Periodontology in Europe. The objective of the EFP is to promote all aspects of the discipline and improve the standard of periodontal care and oral health among the population in Europe.

The meetings of the EFP are held every three years. The reputation of these meetings has spread for beyond the European boundaries and EuroPerio has now become an international event, a reference for all clinicians and academics in the field of periodontology. EuroPerio meetings have been held in Paris, Florence, Geneva, and Berlin. This year, the EFP will celebrate EuroPerio 5 in Madrid from June 29 to July 1, 2006.

Madrid with its world-famous museums, its renowned restaurants and terraces, its busy night life does not need an introduction. The scientific program of EuroPerio 5 will be stimulating and exciting, presenting the most recent advances in basic clinical sciences to the most innovative approaches in clinical practice. A major exhibit as well as numerous social activities have been planned. So, we have all the ingredients necessary to make a great meeting.

Come and join us. We look forward to seeing you in Madrid. EuroPerio 5 will be an unforgettable event!
